### Action of Chesapeake and Ohio Directors Made That Stock Very Weak.

NEW YORK, April 15.—There was obvious distribution of stocks going on to-day and the selling to realize profits kept the tone of the market unsettled and irregular and made considerable inroads on prices in the generalist. The selling was conducted with caution and skill with a view to cause as little effect on prices as possible and gave evidence in that respect of the experienced management of the speculative campaign.

The bear parity seemed to be timid about extending their position, owing to the impression of the power and capacity of the conductors of the campaign. The usual device of making selected stocks strong for sympathetic effect on the general list was adopted as a gustaining influence while the realizing sales were going on The Coalers as a group were the conspicuous example, especially Reading, which was kept active throughout the session.

Another sustaining force in the mar-

which was kept active throughout the session.

Another sustaining force in the market was the Southern Railway stocks. The professed reason for the movement was the report that the company had sold an additional \$5,000,000 of its improvement bonds to its bankers, who have but recently purchased \$21,000,000 of these bonds, and that the offering price of the honds was builting advanced at the same time. The adjournment of the Chesapeake and Chio directors without moving to advance the dividend as had been runnored, made that stock vulnerable to weakness. There was a general recovery in prices in the latter part of the day, but the closing tone was irregular again.

Bonds were irregular, Total sales, par value, \$5,382,000. United States honds were unchanged on call to-day. Total sales of stocks to-day were 1919,400 shares.

Sales on the spot 1.00 bales and 1.900 to arrive. Putures opened steady at an advance of 10 \$314 points with a good business doing. Offerings from satisfied longs were heavy, but were eagerly snapped up by new longs, who were tempted into the market by the heavy spot sales in Liverpool and better reports from Manchester. Around the middle of the day business fell off a little and profit-taking had more effect than in the early hours. At the lowest, however, prices were well above yesterday's closing level, in the afternoon session reports of heavy spot trading in the interior caused nervousbess among shorts and fresh long buying and prices quickly mounted to the highest levels of the day, at the same time new high records for the season were made on all options. At the highest the old crops were at a net advance of 22 \$25 points, and the new crops as a net advance of 22 \$25 points, and the new crops a
